

THE WOMEN AND CHILDREN'S HOSPITAL of BUFFALO
Foundation

December 18, 2012

Ms. Barbara Webber
Jessa's Quest
130 Stillwell Ave.
Kenmore, NY 14217

Dear Ms. Webber:

On behalf of the physicians, nurses and staff at Children's Hospital, thank you for your gift of support. Your generous gift of \$1,000.00, for Xmas Adopt (2) Families thru Stones Buddies, made by Business Check dated 12/3/2012, received on 12/18/2012 ensures that every child is cared for regardless of a family's ability to pay.

No goods or services were provided to you, whole or in part, in exchange for this donation. This letter will serve as the IRS required official written acknowledgement of your gift and should be maintained for your 2012 tax records.

Children's Hospital is the only regional Hospital devoted to pediatric and maternal care in Western New York and has spent over 120 years caring for patients and their families. 2012 marks a milestone. A physician led committee, after much consideration, agreed that an ambulatory surgery center for pediatrics belonged on the medical campus. Groundbreaking will be in the near future. Further meetings concluded with the decision that a new Children's Hospital would complete the medical campus and improve all facets of care providing children with the proximity to the Gates Vascular Institute and the Buffalo General Medical Center. These are exciting times. New modern buildings offering staff the ability to provide state of the art care. As we look forward to the future, we must always remember that, every day, sick and injured children need our help.

The Hospital and its staff could not do what it does without the generous support of a caring community. Thank you again for your thoughtful gift to Children's Hospital.

Thank you,

Elsie Dawe
Vice President, Foundations
