

You're never alone.

April 11, 2013

Ms. Barbara Webber
130 Stillwell Avenue
Kenmore, NY 14217

Dear Ms. Webber,

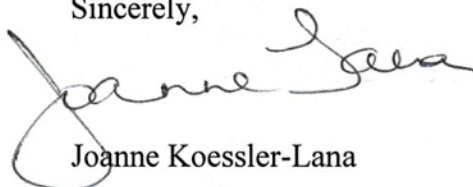

Thank you for the generous donation for two families in the Stone's Buddies program at the Women & Children's Hospital of Buffalo. With your donation, we were able to buy gift cards to help them with their holiday shopping. It's always amazing when people who have faced such difficult times come through it all and find a way to make life better for others struggling with similar difficulties.

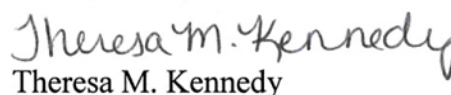

Thanks to Jessa's Quest, the families of Ashton and Desiree had a very special Christmas and many special memories were made. We want you to know how much we truly appreciate all you have done for them.

The Stone's Buddies program, named after former patient Stone Filipovich, is designed to help chronically ill patients and their families cope with the emotional, financial, and social issues that accompany chronic illness. Whether the kids are battling cancer or learning to live with a life-long disability, their worlds are forever changed. Our goal is to connect them with those in similar circumstances, try to make their stay at the hospital as comfortable as possible and serve as a bridge between these families and those in the community who would like to help.

As a supporter of Stone's Buddies and Women & Children's Hospital, you have helped to brighten the lives of two wonderful families. Thank you for thinking of us!

Sincerely,

Joanne Koessler-Lana

Theresa M. Kennedy
